Github | Heroku | Bootstrap | Adobe Creative suite

PROJECTS

View portfolio at: leninyang.github.io

Emaily | Built a large feedback-collecting web application

JS / React / Redux / Node.js / Express.js / MongoDB

- Implemented Materialize design, RESTful JSON API, and hand rolled user authentication using PassportJS and enhanced the flow with Google OAuth
- Built email handling with Sendgrid API and processed credit card payments using Stripe

Jot | Architected and built a web application inspired by Google Keep

JS / Angular / Ruby on Rails / PostgreSQL / Node.js / Express.js

- Used Angular JS to create a dynamic, full CRUD, single page application that makes AJAX requests to the backend API that I built using Ruby on Rails and a PostgreSQL database
- Implemented user/database authentication and session management using Java Web Tokens

Perfect Excuse | Created an application to find an excuse for any situation

JS / Angular / Ruby on Rails / PostgreSQL / Node.js / Express.js

- Collaborated with a team of developers to create a MEAN stack application
- Provided daily project management for a team of 3

Chefs Corner | Designed a web application to share food posts.

HTML / CSS / JS / MongoDB / Node.js / Express.js

- Provided session management with express-sessions and added password encryption with bcrypt
- Built with MVC framework and contains full CRUD capabilities

EXPERIENCE

Central California Alliance of Health, Scotts Valley

Systems Administrator | May 2016 - Mar 2017

- Provided desktop support for over 500 Employees
- Administered and maintained Microsoft Windows 2003/2008 Active Directory Services
- Configured and monitored health of VMWare servers

Lumosity, San Francisco

IT Engineer | Mar 2015 - May 2016

- Maintained images using DeployStudio and Windows Deployment Toolkit
- Managed access for Google Apps, Okta, Adobe CC, Office 365, and Jira
- Coordinated new software releases, new documentation, and end user training

TubeMogul, Emeryville

IT Support Specialist | Aug 2013 - Mar 2015

- Participated in the process of onboarding new hires and provided IT overviews
- Administered global IP Telephone networks for internal users using Shoretel and ThinkingPhones
